Technology Requirements

For best viewing and functionality, the Google Chrome web browser must be used with the learning management platform.

Due to the nature of the online component, students must make sure their home computer has an internet speed of 2.5 MBPS (upload/download) or greater. Students can test their internet speed at www.speedtest.net.

Computers must have an internal or external web camera and microphone. Operating system requirements and operating system information can be found in the table below.

Hardware/Software	Amount or Version	Required or Optional
Webcam		Required
Microphone		Required
Hard Drive Space	20 GB Free HDD Space	Required
Memory	16 GB	16 GB Recommended, 8 GB Required
