

ASPMF 720: CLINICAL PRACTICUM I

This is the first course in a sequence of three to improve the fellow's knowledge and skill in acute pain management practices throughout the perioperative period. Fellows attend an on-campus intensive covering all aspects of essential ultrasound-guided regional anesthesia procedures to include anatomist-guided cadaveric dissections, needling practice on whole-body cadavers, live model scanning, and neuromuscular assessment. This knowledge is translated into clinical practice during clinical rotations at affiliate sites under the mentorship of preceptors.

Credits: 1.00

Faculty: Nicolette Hooge, DNP, MBA, CRNA; Christian Falyar, DNAP, CRNA, FAANA

Learning Objectives: [D14](#), [D23](#), [D26](#), [D33](#), [D35](#), [D44](#), [D45](#), [D46](#), [D49](#)
